

AMENDMENTS TO THE CLAIMS

1-8. (Canceled)

9. (New) A mobile commodity case for storing a plurality of commodities, comprising:

a storing section for storing a plurality of detachable plates on which said commodities respectively having RF tags are placed;

input means for allowing an input operation to be performed;

a reader/writer for performing, based on the input operation, contact-less communications with the RF tags on the plurality of the plates; and

a display for displaying information of all the RF tags of the commodities, which information having been gathered en bloc via the communications, wherein

an antenna of said reader/writer is arranged so as to be in parallel to the plates stored, and

said reader/writer is provided on a surface at a bottom of said storing section so that the entire storing section is a communications region.

10. (New) The mobile commodity case as set forth in claim 9, wherein:

said storing section is provided on a side of a case main body;

the side of the case main body is provided with an open/close structure so that opening/closing of a case cover is enabled, the case cover being one side of the mobile commodity case; and

said input means and said display are provided on an internal surface of the case cover.

11. (New) The mobile commodity case as set forth in claim 9, wherein a grip for disposing the mobile commodity case is externally provided.

12. (New) The mobile commodity case as set forth in claim 10, wherein a grip for disposing the mobile commodity case is externally provided.
